

Francisco Gonzalez

Senior Software Engineer / Full Stack Developer & Consultant

[linkedin:jfrancisco-gonzalez](#) | [github](#) | [page](#)

SUMMARY

Experienced Senior Software Engineer and Consultant with a robust background in enterprise application development, full stack solutions, and supply chain management. Specialized in designing, scaling, and delivering high-impact web applications using .NET Core, C#, and React. Proven track record of optimizing CI/CD automation pipelines, leading technical migrations, resolving critical production issues, and collaborating seamlessly in agile, multicultural environments to drive business results.

TECHNICAL SKILLS

- **Programming & Frameworks:** .NET | .NET Core | C# | ASP.NET MVC | Web API | Fast Endpoints | ReactJS | TypeScript | LINQ | Entity Framework Core | xUnit | WPF | XAML | VSTO | VB6 | VBA | Appian
 - **DevOps & Tools:** Azure DevOps | CI/CD Pipelines | GitHub Actions | Docker | Git | Bitbucket | TFS | Postman | Swagger
 - **Databases:** MS SQL Server | Oracle SQL Developer | PostgreSQL | SQLite | MongoDB
 - **Testing & Quality:** Unit Testing | Integration Testing | Code Reviews | Test Automation | Performance Optimization
 - **Methodologies & AI Tools:** Agile / Scrum | Jira | ServiceNow | Confluence | GitHub Copilot | AI Coding Assistants
-

PROFESSIONAL EXPERIENCE

Apex Systems | Sr Consultant

Apr 2025 – Ago 2026

- **Technical Environment:** Angular, .NET Core API, MVC, Razor, Fast Endpoints, MS SQL Server, Entity Framework Core, LINQ, xUnit, Azure DevOps, Git, GitHub Actions, TFS, Postman, GitHub Copilot.
- **Key Contributions:**
 - Spearheaded backend and frontend enhancements, delivering high-impact APIs and business features using Fast Endpoints and Entity Framework Core.
 - Configured and optimized automated CI/CD pipelines via GitHub Actions and Azure DevOps, reducing deployment risks and release cycles.
 - Stabilized and restructured unit and integration test suites using xUnit, ensuring reliable test execution in local and pipeline environments.

- Rapidly resolved high-priority system bugs and UI client interface issues under pressure, maintaining high operational stability.
- Mentored junior and mid-level developers on engineering standards, testing frameworks, and workflow best practices.

Nexaminds | Software Engineer

Nov 2024 - Mar 2025

- **Technical Environment:** .NET Core Web API, React, Docker, Git, Azure DevOps, MS SQL Server, Entity Framework, Postman.
- **Key Contributions:**
 - Led the successful migration of a legacy Windows Forms application to a modern cloud-based architecture focused on scalability and maintainability.
 - Delivered new front-end and back-end functionalities aligned with evolving business and technical requirements.
 - Detected and fixed critical production defects, significantly reducing system downtime and increasing overall application stability.
 - Strengthened collaboration between development and QA teams through structured testing and effective defect management.

EPAM | Software Engineer

Mar 2019 - Jun 2024

- **Technical Environment:** .NET Windows Forms, .NET Core Web API, React, Oracle SQL Developer, ServiceNow, Git, Entity Framework, Postman.
- **Key Contributions:**
 - Provided technical support and application maintenance for complex Pharma and Legal systems, ensuring high SLA compliance.
 - Coordinated cross-functional IT teams during critical incidents to guarantee rapid recovery and minimal business disruption.
 - Optimized backend database workflows through advanced SQL scripting, improving data processing, and operational efficiency.
 - Documented architectural best practices and mentored incoming team members to accelerate their technical onboarding.

Sanmina-SCI | Web Developer

Nov 2003 - Mar 2019

- **Technical Environment:** ASP, ASP.NET, VSTO, MS SQL Server, PostgreSQL, SVN Tortoise, Excel Macros, Entity Framework, LINQ.
- **Key Contributions:**
 - Designed and implemented enterprise solutions to support global supply chain operations, focusing on automation and workflow optimization.
 - Developed automated reporting workflows and advanced Excel macros, saving significant time for the department and improving accuracy.

- Handled cross-application technical support and systematic defect tracking to ensure business continuity.

CETI | Professor

Apr 1998 - Nov 2003

- **Technical Environment:** Microsoft Office, Linux, ASP, MS Access, C++.
- **Key Contributions:**
 - Delivered specialized courses in engineering and technology subjects, developing laboratory practices to foster strong technical foundations.
 - Facilitated academic coordination, student project guidance, and departmental administration.

EDUCATION AND CERTIFICATIONS

- **Bachelor's degree in Industrial Engineering** | CETI (1998 – 2001)
- **Bachelor's Degree as Electrician** | CETI (1994 – 1998)
- **Microsoft Certified Technology Specialist:** .NET Framework 4, Web Applications
- **Microsoft Certified Professional:** Programming in HTML with JavaScript and CSS3
